

On-site Co-Teaching Model Professional Development

The Arkansas Co-Teaching Project offers the following onsite professional development opportunities:

The Ins and Outs of Co-Teaching - ½ day, \$800

As more students with disabilities receive their special education services in the general education classroom, it is critical that everyone involved have a better understanding of the co-teaching model in order to take full advantage of its potential. Using an interactive co-taught format, the two co-presenters will draw upon their knowledge of co-teaching research and their own personal experiences with co-teaching to provide an overview of the model for participants interested in creating a new co-teaching program or enhancing an existing one.

Differentiated Instruction in the Elementary Co-Taught Classroom - One full day - limited to 50 participants - \$1500

This co-taught interactive session is designed to extend the knowledge and enhance the instruction of elementary co-teachers who already have foundational understanding of the co-teaching model by providing them with an opportunity to explore specific differentiated classroom practices.

Differentiated Instruction in the Middle School and Secondary Co-Taught Classroom - One full day - limited to 50 participants - \$1500

This co-taught interactive session is designed to extend the knowledge and enhance the instruction of middle and secondary co-teachers who already have foundational understanding of the co-teaching model by providing them with an opportunity to explore specific differentiated classroom practices.

To schedule a session or for more information, contact Rose Merry Kirkpatrick at rosemerry.kirkpatrick@arkansas.gov or 501-835-3330.
