Technical Application

Purpose in Reviewing Data

Student data are entered in the DDS application of MySped Resource. Employee data are entered and reviewed directly into the 'Personnel' application of MySped Resource. MySped Resource application provides the opportunity to review, verify, and make corrections to the data to ensure accurate federal reporting.

Individuals responsible for accurate reporting may use the following procedures to check for any errors, omissions, and/or discrepancies in their center's data. This manual provides step-by-step instructions and examples of various data review methods.

To efficiently review data, it is helpful to first understand the federal reporting requirements and the related data fields. For more information on the federal reporting requirements, please refer to the State Performance Plan (SPP)

<https://arksped.k12.ar.us/DataAndResearch/PublicReporting.html>. Data Dictionaries, which contain detailed information on all of the federally required data fields, are also available on the internet at <https://arksped.k12.ar.us/DataAndResearch/DataDictionaries.html>.

Possible Reasons for Making Changes in Data

1. **Updates** are needed to reconcile between the reporting period ended and when the data is pulled for review.
2. Data entry **typos** when keying in DDS application of MySped
3. Inaccurate **coding** when keying in DDS application
4. Formulas or glitches in the **programming**
5. Data not **transferring** correctly

Access to MySped Database for Review:

1. Go to Arkansas Special Education website: <http://arksped.k12.ar.us>
2. Click on MySped Resource near the flashing red arrow, top right corner of the screen
3. Type in User ID and Password and click on 'Sign-In'

Tips for Navigating the Application

- Use the Tab key or the mouse to navigate through the fields
- Data Entry format is mm/dd/yyyy.
- Press SAVE before Exiting. Look for message in red at top of screen (**Data has been saved!**) to verify data has been saved. If the data did not save, the message will state the related problem. Correct the data as indicated in the message and press SAVE before exiting the screen.

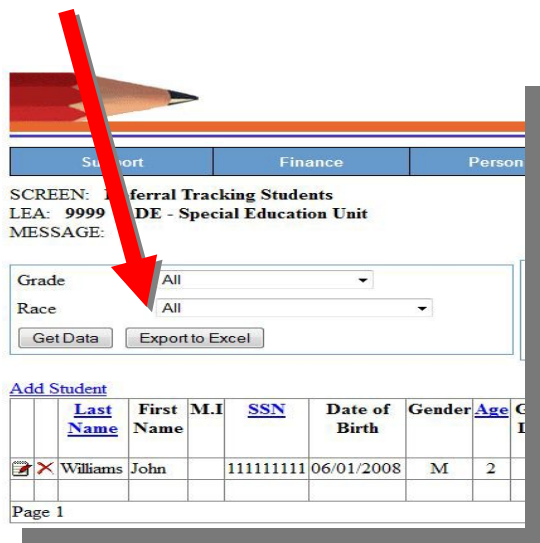

Printing Data for Review

You may find it helpful to copy and print your center's data from MySped Resource. This allows you to work from a hard copy, distribute data for verification, and save a backup of your data. There are two different methods to extract and save data from MySped Resource: the copy and paste method and the 'Export to Excel' method.

How to Copy and Paste Student Lists from MySped

1. Open up a blank/new Word document or Excel spreadsheet
2. Go back to MySped and sort student list as needed
3. Left click inside the blank space/column above the first student notepad.
4. Hold down left mouse button and drag arrow pointer on mouse to bottom of student list. All records should be highlighted.
5. Right click on mouse anywhere inside student list or highlighted area
6. Choose Copy
7. Go to open Word or Excel document (click on appropriate tab at bottom of computer screen)
8. Choose 'Edit' on menu bar at top of screen
9. Choose 'Paste'
10. Save document and distribute to desired person to verify students

Save, Sort, and Review in Export to Excel

Click on the 'Export to Excel' button at the bottom of the screen. This lists all the students and all the fields. Once you have saved the Excel file to your computer, open the file to create a list to sort and filter. Note that the file will download as 'Excel Report' and needs to be renamed.

Create a List to Sort and Filter

1. Click on the box in the top left corner
2. Click on Row 5 to highlight the row
3. Select the Data Tab on the menu bar ABOVE Spreadsheet.
4. Choose the filter option

Correcting the Data

Once you have completed the review process using MySped Resource, you will need to make any necessary corrections. Make corrections and updates in three possible places:

- Update **MySped** to report accurate data;
- Update **DDS application** to maintain accurate data; and,
- Update your own **personal file** for record keeping and backup. Use the 'Export to Excel' function to save your own Excel file. This allows you to refer to your data at any time and serves as a backup file in the event of technical difficulties. *Remember, when you are reviewing in Excel, any corrections will need to be made in the individual student or employee application in MySped.*

Cycle 4 – Review Student Data - Early Childhood

Overview

Special Education student data in MySped Resource is the data pulled from the DDS application of MySped Resource. The data should reflect **all students served in your center on December 1** for the fiscal year for Cycle 4 federal reporting.

- **Review period:** MySped will be open **entire month of January**
- **The data for review in MySped is the data you entered in the DDS application of MySped Resource.** Any data you entered as of December 15th is the data that is reported for Cycle 4.

In order to ensure accurate data has been entered and pulled correctly, the following will serve as a guide to review specific areas.

Student Application Quick Review

Instructions in how to view the student data and make changes are outlined below. These main instructions to add, delete, exit, and save student data apply to all applications in MySped.

Procedures to Add or Delete a Student

1. Click on 'Students'.
2. Click on drop-down menu → Early Childhood-Cycle 4 then Entry – Early Childhood Data.

3. **Add** students as necessary by clicking 'Add Student' located at the bottom of your student list.
4. **Delete** students not receiving services on December 1 by clicking red **X** to the left of their name.

Procedures to Edit a Student Record

1. To **edit**, use small notepad at the left of the red **X** to go into individual student's data.
2. Make necessary changes in each field. Refer to the Early Childhood Data Dictionary for more detailed information on each field located at our website:
<http://www.arkansased.gov/divisions/learning-services/special-education/data-research/training-material/data-dictionaries>.
3. Click on 'Save' and check message that data are **saved successfully**.
4. Click 'Exit' to return to the list of all students.

Additional Tools for Data Review

Four options are available for you to sort and review data for accuracy: The MySped Resource Drop-down Menus, the Column Sort, the 'Export to Excel', and the MySped Resource Student Reports.

1. My Sped Resource Drop-down Menus

Drop-down menus located above the student list: You may view Early Childhood students and their data on the MySped screen by choosing Disability, or EC Environment. Click 'Get Data.' **Note: Set tabs to 'All' in drop-down menu before beginning a new sort. Otherwise the sort will include the previous way it was organized.**

By Disability only - example

To find all speech only students

- From 'Disability' tab, select 'Speech/Language impairments'
- Click on 'Get Data'

By EC Environment only - example

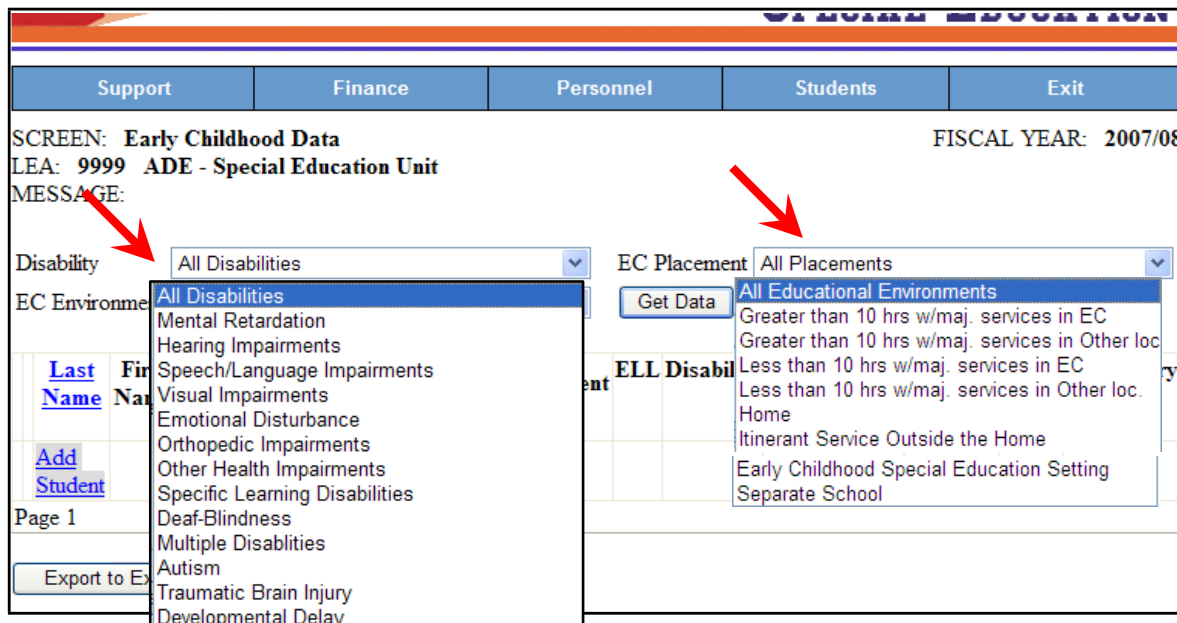

To view all students in a 'Itinerant Service Outside the Home' as of December 1.

- From 'EC Environment' tab, select 'Itinerant Service Outside the Home'
- Click on 'Get Data'

By Disability and EC Environment - example

To find all speech only students in 'Greater than 10 hours with maj of srvcs in EC'

- Sort by 'Disability' - 'Speech/Language Impairments' and 'EC Environment' - 'Greater than 10 hours with maj of srvcs in EC'
- Click on 'Get Data'

2. My Sped Resource Column Sort:

Click on the [blue heading](#) you want to sort all students by (Last Name, SSN, or Age).

Check student's Last Name for possible duplicate records

- Make sure Disability and EC Environment tabs are set to 'All'.
- Click on the last name heading typed in blue to sort the students by last name.
- Check for any students with the same last name and confirm there are not duplicate entries.

Check the Social Security Numbers in your program

- Make sure Disability and EC Environment tabs are set to 'All'.
- Click on the SSN heading typed in blue to sort the students by SSN. Check for:
 - Any students with the same SSN
 - Any SSN's that are not nine digits or look unusual
- Make corrections by verifying the social security numbers. This may involve contacting the parent or checking the child's file to see a copy of the social security card. Make necessary changes in the DDS Applications and MySped Resources.

Check for Invalid Age or Invalid Birth Date

- Click on the Age heading typed in blue to sort the students by age.
- All students should be between 3 to 5 years old
- Those students, whose age is wrong, verify the birth date. Make necessary changes in DDS Applications and MySped Resource.

3. Save, Sort, and Review Using Export to Excel

Click on the '[Export to Excel](#)' button at the bottom of the screen. This **lists all the students and all the fields**. Sorting and reviewing by last name, SSN, and age as described above will assist in verifying the accuracy of the data. Save the Excel sheet to your computer as a backup for December 1 Child Count.

Once you have saved the Excel file to your computer, open the file. You can then sort and review the data for accuracy.

Create a List to Sort and Filter

1. Select any cell in the list.
The cell is selected.
2. Select the **Data** menu.
The Data menu appears.
3. Point to the **List** command.
The List submenu appears.
4. Select the **Create a List** command.
Create List table appears.
5. Click box to indicate your list has headers.
6. Click OK.
Arrows appear in the column label cells.

7. Click on any arrow to sort or filter data.
Only records meeting the criteria appear.
8. If you have filtered on multiple fields, you must select **(All)** from each AutoFilter list to display all records. You can clear all filters at the same time by selecting the **Data** menu, pointing to the **Filter** command, and selecting the **Show All** command.

Any changes that are identified need to be made in the individual student or employee data in MySped. **Making corrections in the Excel worksheet will NOT make automatic changes to MySped.**

4. My Sped Resource Early Childhood Reports

In addition to sorting in MySped and 'Export to Excel', reports may be reviewed and cross-checked to verify accurate child count and accurate student data for each student. The reports are located at the Early Childhood menu under Students (see picture below). The reports assist in verifying and cross-referencing with the number of children for the various areas listed in the reports.

Cross-Reference Reports and look for Discrepancies

Check that the grand totals in the reports for Early Childhood Cycle 4 are all equal to the number of students being reported as served on December 1. If they are not equal, check individual reports and compare each category in order to troubleshoot why the numbers are not adding up to be the same.

For example:

The Report – Disability X Age has a different number of students than the Report – Disability X Race/Ethnicity

- Go into the 'Entry – Early Childhood Data' and sort all students by 'Age' column (see page 9). Scroll down to verify all students are 3-5 years of age. Correct birth date or delete child from MySped if appropriate. Make individual student corrections by going back into MySped Entry for Early Childhood Data.
- Go into the 'Entry – Early Childhood Data' and sort all students by 'Disability' heading in Export to Excel (see page 9). Check that all students have a valid disability code. Make

individual student corrections by going back into MySped Entry for Early Childhood Data.

The Report - Educational Environment X Race/Ethnicity has a different number of students than the Report – Educational Environment X Disability

Note: Report-Educational Environment X Disability - Part 1 includes the levels of time in the regular EC classroom. The Report-Educational Environment X Disability - Part 2 includes the remaining codes (Separate Class, Separate School, Residential Facility, Home, or Service Provider Location).

- Go into Early Childhood Data and sort all students by 'Disability' heading (Sorting Data in Export to Excel, by Disability). Check that all students have a valid disability code. Make individual student corrections by going back into MySped Entry for Early Childhood Data.
- Check individual categories of Educational Environment and verify any potential discrepancies.
- Go into Early Childhood Data and sort all students by 'Educational Environment' heading (Sorting Data in Export to Excel, by Educational Environment). Check that all students have a valid Environment Code. Make individual student corrections by going back into MySped Entry for Early Childhood Data.

Cycle 4 - Reviewing Employee Data

Overview

Special Education personnel data in MySped Resources should reflect **all employees employed on December 1** for the fiscal year.

- **The data entry period:** MySped is open for at least the first two weeks in December for data entry on personnel
- **Review period:** MySped will be open **for the month of January** to review and edit.

Personnel Application

1. Click on 'Personnel'
2. On drop-down menu click → Employee to review data:
3. Delete any employees that were not employed on December 1 by clicking on the red **X**.
4. Add employees as necessary by clicking 'Add Employee' located at the bottom of the list of all employees. See the Employee Data Dictionary for more details on reporting fields.

Save Exit

Employee Screen

6. Save any updates before Exiting.
7. Exit takes you back to the list of employees.

Additional Tools for Data Review

Two options are available for you to sort and review data for accuracy. Any corrections can be made for each employee by using the notebook icon that edits existing employee data.

1. **MySped Resource Column Headings:** Click on the blue headings in order to sort all employees by Last name or by Title/Service Provider Code. This will assist you in getting a quick visual of employees in order of their last name or Title Code.
2. **Save, Sort, and Review using Export to Excel**
Click on the '[Export to Excel](#)' button at the bottom of the screen. This lists all data fields for you to view. Save the Excel sheet to your computer as a backup of December 1 Personnel. Choose the 'Save' option to create a working copy on your own computer.

Once you have saved and opened the Excel file on your computer, you can sort and review the data for accuracy by creating a list to sort and filter.

Create a List to Sort and Filter

1. Select any cell in the list.
The cell is selected.
2. Select the **Data** menu.
The Data menu appears.
3. Point to the **List** command.
*The **List** submenu appears.*
4. Select the **Create a List** command.
Create List table appears.
5. Click box to indicate your list has headers.
6. Click OK.
Arrows appear in the column label cells.
7. Click on any arrow to sort or filter data.

Only records meeting the criteria appear.

8. If you have filtered on multiple fields, you must select **(All)** from each AutoFilter list to display all records. You can clear all filters at the same time by selecting the **Data** menu, pointing to the **Filter** command, and selecting the **Show All** command.

Any changes that are identified need to be made in the individual student or employee data in MySped. **Making corrections in the Excel worksheet will NOT make automatic changes to MySped.**

Sort and Review by Service/Title Code ('Svpr_cd')

Paraprofessionals (Title code 13)

- Service/Title Code should be 13 only
- Certification Status (Cert Status) should be coded as E, F, G, or H
- SpEd Aide should be N/A
- Teacher Caseload Count should be 0's
- Per Period Range should be blank or 0:0
- FTE reflects proportion of time employed in your district – cannot be greater than 1.0.

Teachers (Title codes 03, 20, 50 – 59)

- Service/Title Codes for teachers should only be 3, 20, and 50 – 59
- Certification Status (Cert Status) should be coded as A, B, C, D and sometimes F. They should never be coded as E, G, H, or I.
- Licensure Endorsement Code (License #) reported for each teaching type of service
- SpEd Aide should be P (part-time), F (full-time), or N/A (not applicable OR No – the teacher does not have an aide).
- Teacher Caseload Count: Make sure the number of students the teacher serves is correctly listed. This is for teacher codes 3, and 50 - 59 (For code 20, see next section).
- Per Period Range for each teacher should be completed.
- FTE reflects proportion of time employed in your district and is less than or equal to 1.0.

Speech Pathologists (Title code 20)

- Teacher Caseload Count is number of children seen by the Speech Pathologist.
- SpEd Aide field should be SP (SLA part-time), SF (SLA full-time), or N/A (No, not applicable – the Speech Pathologist does not have a Speech Language Assistant).

Occupational and Physical Therapists (Title codes 4 and 5)

- FTE reflects the proportion of time employed or contracted in your district and is less than or equal to 1.0.
- SpEd Aide should be N/A
- Teacher Caseload Count should be 0's
- Per Period Range should be blank or 0:0
- Certification Status should be coded E, F, G, or H

Sort and Review by 'Last Name'

Duplicate Employees

- If employees are listed more than once, verify they have a different Service/Title code and/or they are providing different services in a different grade level for each individual listing (Professional services the Elementary *and* district's 3-5yr Early Childhood program).
- Verify the total FTE is proportioned out among services and is equal to 1.0 or less when added together.

Sort and Review by 'SSN'

Social Security Numbers

- Visually verify accuracy
- Are there 9 digits?
- If you use a pseudo SSN for contract employees, is it consistent with what you have used in the past? (Keep the same pseudo number in your records).
