

Q) Who should we contact if a child needs to be removed from the incorrect FY or needs to be added to the correct FY?

A) Please contact Dr. Jody Fields at 501-683-7219 or jafields@ualr.edu. Do not include child SSN in emails.

Q) In a C to B transition referral, how early before the child's 3rd birthday can the process begin?

A) They can start the process six months before the 3rd birthday, which would bring them to approximately 3 months before the child turns 3.

Q) Can an evaluation completed recently for Part B eligibility be used to determine eligibility for the transition to Part C?

A) Yes, if Due Process is followed. This means the Parent gives consent and then the previous evaluation can be reviewed and deemed still valid for the child. In this case, the Evaluation Date would also be the Parent Consent to Test Date.
